

Aimen Qaiser

Frontend Engineer — React, Three.js, TypeScript
Saarbrücken, Germany — aimenqaiser2000@gmail.com — +49 15755830669
Portfolio: aimen-qaiser.vercel.app — GitHub — LinkedIn

PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building scalable web applications using **React**, **TypeScript**, and **Three.js**. Specialized in developing high-performance 3D web applications and interactive user interfaces. Delivered production systems used by **10,000+** users, including experience in enterprise environments like **SAP**. Strong focus on performance optimization, UI architecture, and real-time rendering.

SKILLS

- **Frontend:** React.js, Next.js, Three.js, TypeScript, Angular, Tailwind CSS, Shadcn UI / Radix UI, Vite
- **3D / Graphics:** WebGL, Three.js, Open3D, AR Visualization
- **Backend / DB:** Node.js, Python, RESTful APIs, Socket.IO
- **Tools / Infra:** Git, Docker, CI/CD, Agile, Requirements Engineering

EXPERIENCE

Think3DDD GbR — *3D Software Engineering Intern* Mar 2026 – Present
Berlin, Germany (Remote)

- Developed and optimized a React & Three.js platform for high-precision 3D medical visualization.
- Improved real-time rendering performance and interaction for digital limb models.

SAP — *Werkstudent JavaScript Developer* Jun 2025 – Nov 2025
Walldorf, Germany

- Developed JavaScript-based automation scripts to improve test coverage and application reliability.
- Collaborated with QA and development teams in an Agile enterprise environment.
- Worked within large-scale software systems and structured development workflows.

DND AI — *Lead Frontend Engineer* Jan 2024 – Oct 2024
Graz, Austria (Remote)

- Led frontend development of a platform serving **10,000+** users using React, TypeScript, and Three.js.
- Designed and implemented scalable UI architecture and reusable component systems.
- Improved application performance by 20% through rendering and component optimization.

Freelance — *Frontend / Full-Stack Developer* Feb 2022 – Jul 2023
Remote

- Delivered 50+ client projects including interactive 3D applications and responsive web interfaces.
- Built end-to-end solutions using React, Next.js, Three.js, and Node.js.

PUBLICATIONS

A. Qaiser, et al. "Enhancing Transparency in Humanitarian Crowdfunding: A Blockchain and MVC-Based Approach." *2025 Horizons of Information Technology and Engineering (HITE)*, **IEEE Xplore**.

- Designed a decentralized architecture to solve transparency issues in NPOs using the MVC pattern.

EDUCATION

Saarland University Saarbrücken, Germany
MSc Media Informatics Oct 2025 – Present

Coursework: HCI, 3D Workshop (HBKsaar - Digital Fabrication & Modeling), Software Engineering

COMSATS University Islamabad Islamabad, Pakistan
BSc Software Engineering Sep 2019 – Jul 2023

PROJECTS

Xiaomi Interactive Showcase — *Three.js, Next.js, GSAP*

- Developed an interactive 3D product showcase for Redmi 12 smartphones with real-time rendering.

Landau Boat Configurator — *Three.js, Next.js, Tailwind, GSAP*

- Collaborated with Landau Boats to improve user engagement via seamless customization and immersive 3D experiences.
- Enabled real-time customization of boat components and realistic water rendering.

DND AI Platform — *Next.js, Node.js, MongoDB*

- Developed an AI-powered platform serving 10,000+ users with a focus on performance optimization.

CERTIFICATIONS & LANGUAGES

- **Certification:** Web Design for Everybody - University of Michigan (Coursera)
- **Languages:** English (C1 Fluent), German (A2 Beginner)
